

**Northeast
Utilities System®**

Officer Profile

LAURIE E. AYLSWORTH

Laurie E. Aylsworth is Vice President – Transmission Projects, Engineering and Maintenance for the Northeast Utilities System (NU). She is responsible for all field operations within NU's Transmission business, including engineering, project management, maintenance, construction, testing and work management.

A native of Steamboat Springs, Colorado, Aylsworth joined NU in 2004. She served as Project Director for the Bethel-Norwalk (B-N) project – one of the most complex transmission projects in the U.S. She most recently led NU's New England East-West Solution project, a transmission build-out of more than 180 miles of new transmission lines across three New England states and 40 communities.

Prior to joining NU, she managed transmission planning and projects for Vermont Electric Power Company (VELCO). Additional utility industry experience includes generation planning for Central Vermont Public Service.

Aylsworth graduated from Colorado State University and earned a Bachelor of Science degree. She is a graduate of the University of Chicago's Graduate School of Business Executive Program in Corporate Strategy. She has served on numerous boards, including the local school board. Currently, she serves as President of the Board of Directors of the World Affairs Council and is Chairperson of the American Heart Association's Go Red for Women. For 2010, she is NU's United Way Chair.
