

**Northeast
Utilities System®**

Officer Profile

KENNETH B. BOWES

Kenneth B. Bowes is vice president – Customer Operations for the Connecticut Light and Power Company (CL&P) a subsidiary of the Northeast Utilities (NU) system. Bowes is responsible for the operation and maintenance of the company’s electric power distribution system in support of reliable, cost-effective and efficient service for CL&P.

A native of New Hampshire, Bowes joined NU in July 1984 in the System Test department. He has held several engineering and management positions in the NU Energy Delivery organizations becoming the Director - Transmission and Distribution Maintenance in 1999, Director - Transmission Construction, Test, and Maintenance in 2002, and Director - Transmission Projects in

2004.

Bowes earned a Bachelor of Electrical Engineering degree from the University of New Hampshire and a Master’s Degree in Electrical Engineering from Rensselaer Polytechnic Institute.

Bowes is the Chairman of the Edison Electric Institute’s Transmission Committee. He has two children and resides with his wife, Marie, in Bristol, Connecticut.
